The planting of our "Quality First" stock insures
a pleasing landscape effect

SPRING 1917

THIS SEASON we are offering a fine selection of High-Class Trees, Shrubs, Evergreens, Rhododendrons, Vines, etc., all of our "Quality First" stock and AMERICAN GROWN.

Due to the precarious war conditions now prevailing, we are not relying on any importations this Spring, and have, in advance, arranged our domestic contracts accordingly. This is not to be taken as any disparagement on our part of Imported Nursery Stock, for much of the best planting material, especially in Evergreens, Rhododendrons, etc. comes from Europe. We offer all AMERICAN GROWN, WELL SELECTED STOCK this season, solely,—because of the above-mentioned conditions.

WAR CONDITIONS have affected the prices of Nursery Stock, as they have practically every other commodity, but considering the scarcity of labor, and advanced costs of materials, used in operating the nursery business, we are making our terms at the minimum, consistent with our selected "Quality First" stock, which is of the same high standard and to be relied upon for satisfactory planting results.

KELSEY NURSERY SERVICE

PLANTING LISTS furnished complete.

GOOD SERVICE APPRECIATED

From a Prominent Park Superintendent in New York State:

"One thing I can perhaps suggest is that you, as an experiment, put in a few good strong words in your advertisements, to effect that you positively can supply anything desired to fill out any requisition for plant materials, no matter how scarce or hard to secure it may be. You will pardon this brief suggestion, I am sure.

"It is pretty good business to keep in touch with a concern, which can positively complement any order.

"I endorse very strongly the size, quality and shapeliness of the materials, with which you have filled your contracts in the past."

An investigation completed this Spring by the N. Y. State College of Forestry finds that nine-tenths of the Roadsides in the Rural Districts of N.Y. State are entirely void of Shade Trees. What possibilities for future development! Highways Committees, Shade Tree Commissions, etc., please take note. We will be glad to co-operate.
